

# FALCON // SIGURD RESELL

Assembly instruction for Falcon First, Falcon Phoenix; high and low back models

## CONTENTS

- (2) Steel frame front support
- (2) Steel frame back support
- (1) Steel center block
- (8) 8mm screws
- (1) M8 (8mm) Allen key
- (1) Canvas with 4 hooks
- Cushion(s)

1. Loosely assemble the four frame supports to the center block with the 8 screws. The front supports should be next to each other, and the back supports should be next to each other. **DO NOT TIGHTEN THE SCREWS BEFORE STEP 3.**
2. Hang the canvas on the steel base (to distinguish canvas orientation: the back is longer and only the seat has a metal frame)
3. Fully tighten the frame support screws to the center block (this will add tension to the canvas).
4. Place the cushion on the canvas. The chair cushion has a leather strap on top of the back with a snap fastener. Snap the cushion fastener to the backside of the canvas.
