Arne Vodder

1926 - 2009
Furniture Architect

ONLY THE VERY BEST WILL DO

The range of furniture designed by Nielaus is not just for sitting on – it is furniture for living with. To achieve that, nothing is left to chance, be it the selection of materials or in the manufacturing process.

Our consistent focus on quality and design, combined with the very best of Danish craftsmanship, ie. our skillful machinists, carpenters and upholsterers, result in an outstanding piece of furniture, where design and workmanship will be a daily delight for years to come.

Visit one of our retailers for a personal demonstration of the Nielaus range and experience genuine Danish quality.

DESIGNED BY ARNE VODDER

Furniture architect Arne Vodder designed this sofa series in 1959. A design, created more than 50 years ago, but having the same relevance today, can without a doubt be called a classic. Notice the elegant arm side with its obvious architectural expression. An expression, that perfectly matches a piece of furniture with many unique details. And a design that ensures perfect sitting comfort. Created to please, made to last.
